SUMMARY

Final-year B.Tech Computer Science (Blockchain) student with hands-on experience in blockchain development, smart contract engineering, and software development. Proficient in Solidity, Python, JavaScript, and Web3 development technologies. Strong foundation in DSA, DBMS, OOP, and Operating Systems. Seeking Software Engineer, Blockchain Developer, or Associate Engineer roles.

TECHNICAL SKILLS

Language: Python, JavaScript, Solidity, C
Database: MySQL, MongoDB
Core CS: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), Database Management Systems (DBMS), Operating Systems, Computer Networks
Tools: Git, GitHub Copilot, MongoDB Compass, Postman, REST APIs, API Integration, VS Code

Blockchain & Distributed Ledger

- Smart Contracts, ERC-20, ERC-721 standards
- Foundry, Remix, Truffle, Hyperledger, Hyperledger Fabric (chaincode concepts, permissioned networks)
- Ethers.js, Web3.js
- IPFS, Layer-2 Solutions, Optimistic & ZK Sync basics

PROJECTS

github.com/Hemant-2704

BlockBazar – NFT Marketplace

- Built a **decentralized NFT marketplace** supporting ERC-721 token minting, listing, purchasing, and ownership transfer.
- Integrated **IPFS** for decentralized metadata storage and **Ethers.js** for Ethereum and **Polygon** blockchain interactions
- Applied **OpenZeppelin security standards** and validated smart contract functionality through Foundry-based testing.
- Reduced security risks by implementing reentrancy-safe payment mechanisms.

Stationery Management System – Python

- Developed a **Python-based inventory management** application for tracking stationery stock and usage.
- Implemented input **validation, stock monitoring, and automated low-inventory alerts**.
- Generated **inventory history and reporting features** to improve stock management.

Crowdfunding Smart Contract

- Designed and integrated an **Ethereum-based crowdfunding smart contract** with goal validation and refund mechanisms.
- Engineered **secure fund-handling mechanisms** with **reentrancy protection** and comprehensive unit/fuzz testing using Foundry .

Grin & Earn (Blockchain)

- Developed a **blockchain-powered reward distribution system** triggered by emotion-detection outputs.
- Utilized **smart contract logic** for transparent reward allocation and transaction tracking.
- Utilized **Web3.js** for frontend-to-blockchain communication and real-time event monitoring.

EXPERIENCE

Intern Developer | Cyber Cell, Vidisha (ASP Office), MP

May 2025 – Oct 2025

- Supported software development and maintenance activities, including testing, debugging, and issue resolution.
- Verified and validated 150+ operational records to ensure data accuracy and consistency.
- Assisted in analyzing technical issues and implementing solutions to improve system reliability.
- Coordinated with team members during requirement collection and project execution activities.

In-House Internship – Programming Tactics

Samrat Ashok Technological Institute, Vidisha

July 2023

- Completed intensive training in data structures, algorithms, and programming fundamentals.
- Solved algorithmic and data structure-based coding challenges to strengthen problem-solving and analytical skills.
- Applied structured programming techniques to improve code efficiency and maintainability.

EDUCATION

- **B.Tech, Computer Science (Blockchain) – SATI, Vidisha (2022–2026) | CGPA: 8.29**
- **Carmel Convent Senior Secondary School, Bhopal, M.P.**
Class XII (CBSE) | 2021–2022
Class X (CBSE) | 2019–2020

CERTIFICATIONS

- Oracle Blockchain Developer Certificate Badge – Oracle University
- Solidity 101 – [Cyfrin Updraft](#)
- Full-Stack Web3 Development – [Cyfrin Updraft](#)
- Privacy & Security in Online Social Media – NPTEL (IIT Hyderabad)
- [Business Intelligence & Analytics](#) – NPTEL (IIT Madras)
- [Enterprise Data Science – IBM](#)

ACHIEVEMENTS & LEADERSHIP

- 1st Prize – Standard Writing Competition (BIS Club, SATI)
- [Manak Mitra Campaign Certificate](#) – Bureau of Indian Standards
- Management Lead – Training & Placement Cell, SATI (2023–2025)
- Member – BIS Club, SATI CSE Department
- Google Cloud Swags (2022, 2023, 2024 – GDSC SATI)
